The Natural Capital Protocol aims to improve decision making by including the impacts and dependencies we have on nature. It will be applicable to all sectors and geographies and will for the first time provide a standardized framework to follow.

Join us at this exciting workshop to get insights on the draft Protocol and sector guides, before they are released for consultation.

- Setting out the draft Protocol; the why, what, how and so what.
- What does it mean to you and how can you contribute.
- Discussions on scope, structure, content and applications.
- Practical examples through pilot-testing.

Workshop programme

When? November 8, 2015, 9AM until 4PM.
Where? Spier Wine farm and Conference Center (www.spier.co.za (Stellenbosch, South Africa); in conjunction with the 8th World Conference of the Ecosystem Services Partnership 9-13 November (www.espconference.org).

Early bird deadline for the ESP conference is 31 August.

To register, contact conference@es-partnership.org (please indicate clearly that you register for the Natural Capital Protocol Workshop)
